HERE AT EARTH FARE,

we are committed to our core value of caring for our planet. We believe that food grown ecologically is good for the Earth. The origins of Earth Fare come from the idea of organic farming. If we feed the earth and nourish it, it will nourish people in return — it's a harmonious, healthy, and vibrant system which helps us to remember why we are here.
—Randy Talley

When you can refill your existing containers, you don't have to buy new bottles, saving a lot of waste! Buying in bulk can reduce the energy footprint required for packaging because it reduces the amount of materials needed in the first place.

-Utilizing bulk Water dispensers prevents millions of empty bottles from entering the waste stream every year.

-On average, purchasing water in bulk costs up to 70% less than bottled water.

-FreshPure water is purified on-site and not sitting in plastic bottles absorbing the plastic taste and odor. FreshPure bulk water is literally hours from being purified when you get it!

-Choose from High pH Alkaline Water, Deionized Water, and Reverse Osmosis Water!
