Fresh Scottish Salmon – & – Fresh Yellowfin Tuna

SAVE UP TO \$4/lb.

Did you know... Tuna is often gassed with carbon monoxide to prevent oxidation which alters the cosmetic appearance of the fish. In other words, “gassed” tuna appears to be fresher than it really is. At Earth Fare, you will never find bright pink tuna that has been gassed in our seafood case. Our Fresh Wild-Caught Yellowfin Tuna will always have a deep, rich purple color, just the way Mother Nature intended! Our Fresh Scottish Salmon also gets its color naturally from its feed, no synthetic coloring here!
