SAVE \$3/lb.

The way cattle are fed can have a major effect on the nutrient composition of their beef. Pound for pound, grass-fed beef has less total fat. Linked to heart health, 100% grass-fed beef has as much as five times the amount of omega-3 fatty acids as regular grain-finished beef and more conjugated linoleic acid (CLA). Earth Fare helps you shop smarter when it comes to 100% grass-fed beef!
